

4.8.6 Exchange (Trade-In)

This process allows the user to record for statistical (reporting) purposes the exchange of personal property to a vendor (supplier) in return for similar 'new' replacement property. There are no NPDMS Property Case Numbers assigned to these records.

NOTE: When navigating through NPDMS, the Fastpath name (limited to eight characters) is displayed on the fourth line starting at the center of the screen.

NOTE: The screen field data areas in the UOG are shown with either blanks, lines, or asterisks. Field data areas that are blank are not modifiable and display data if it is available. Field data areas with lines are modifiable and may be optional unless conditionally tied with other screen fields. If the field data area is tied to another field, NPDMS displays an appropriate warning or error message if an entry is required. Field data areas with asterisks require entry of data and may be modified if pre-filled by the system.

- From the NPDMS MAIN MENU (NDO000MB) type **5** at Enter Selection to access the TRANSACTION MENU (ND5000MA).
- Press **<Enter>**.

The TRANSACTION MENU (ND5000MA) screen is displayed.
